

CARE & MAINTENANCE

Autex Interior Acoustics and Quietspace® products are extremely durable and require little attention to maintain their good looks. Light vacuuming on a regular basis will prevent dust build up and most marks can be cleaned with a mild detergent solution followed by rinsing and blotting. Stains should be dealt with according to the chart below. Before carrying out a proposed cleaning method, apply to a concealed section to ensure it will not affect the adhesive or product. Avoid severe abrasion. Spot clean only. Vacuum to restore pile, but do not use a stiff brush.

NB: We do not recommend using solvent-based solutions on Autex Interior Acoustics and Quietspace® products.

STAIN	TREATMENT GUIDE
Blood	A C
Burn/Scorch Mark	J
Chewing Gum	B C D H
Chocolate	B C D
Cooking Oils	B C D

Paint (water based)	A C E
Paint (oil based)	A C D G
Sauces	B C D
Shoe Polish	B C D
Urine	A C
Vomit	A C D
Wine	A Add Salt C

KEY

- A** Mop up excess as soon as possible with a sponge or cloth.
- B** Remove surplus with a knife edge or appropriate instrument.
- C** Sponge with a solution of carpet shampoo working from well outside the stain in a circular motion towards the centre (this avoids spreading the stain). Sponge afterwards with clean warm water and mop excess moisture with a clean dry cloth or sponge. Allow to dry then brush gently with a soft brush. If any stain remains, sponge with a solution of one part household bleach to six parts clear water. Thoroughly rinse after treatment.
- D** Lightly sponge with household dry cleaning fluid and blot. Apply sparingly, as the substance may have an adverse effect on the adhesive.
- E** Lubricate the stain with glycerine or petroleum jelly.
- F** Apply nail polish remover. The nail polish remover should not include lanolin or be of a greasy nature.
- G** Sponge with turpentine (or substitute).
- H** Freeze with ice cubes and scrape away while cold.
- I** Clean with regular extractive carpet cleaner (if possible).
- J** Use circular cutter and remove damaged portion. Re-glue new piece into place.
